The Association of Theological Schools in the United States and Canada

The Association of Theological Schools in the United States and Canada (ATS) is the accrediting and program agency for graduate theological education in North America. The mission of the Association is to promote the improvement and enhancement of theological schools to the benefit of communities of faith and the broader public. The Association seeks to fulfill this mission by engaging in four core functions of work: (1) accreditation, (2) leadership education for administrative officers and faculty, (3) development of theological education, which involves the study of critical issues in theological education, and (4) data and communications.

The Association is recognized by the United States Department of Education and by the non-governmental Council for Higher Education Accreditation for the accreditation of graduate, professional theological schools in the United States.

The Association began in 1918 as a conference of theological schools that met biennially. In 1936, it became an association, adopted standards for judging quality, and in 1938 established a list of accredited schools.

During the 2000-2001 academic year, the ATS membership consisted of 243 Protestant, Roman Catholic, and Orthodox theological schools, which included independent, university-affiliated, and college-affiliated graduate schools. Together, these schools reflect the broad spectrum of denominational, ecclesiastical, and theological perspectives evident in North America.

Information about the work of the Association and its member institutions is available on the ATS website at www.ats.edu.

Introduction

The *Fact Book on Theological Education* has been published annually since 1969. The data on which the *Fact Book* is based are provided on Annual Report Forms by the member schools of the Association. The majority of Annual Report Forms are submitted to ATS in electronic form and are entered into the institutional database at the ATS office in Pittsburgh, Pennsylvania.

This edition of the *Fact Book* generally reflects recent prior editions and carries forward the substantive changes made in the 1996-97 *Fact Book* with respect to the new accrediting standards adopted by the Association in June 1996 that recategorized the degrees offered by member schools. It also maintains the revisions that resulted from the changes in the Annual Report Forms to accommodate revised accounting rules for schools in the United States, as mandated by the Financial Accounting Standards Board (FASB).

The *Fact Book* is one of three resources provided by the Association to assist leaders of theological schools in strategic planning, policy development, and institutional evaluation. The *Institutional Peer Profile Report* provides member schools with comparative data from five to fifteen other institutions selected and identified as “peers” by the institution requesting the report. The *Strategic Information Report*, introduced in 1998, was developed with the Auburn Center for the Study of Theological Education and provides indicators of a school’s financial and enrollment strength, stability, and position in relation to other ATS institutions.

The *Fact Book* was edited this year by Louis Charles Willard. The ATS database is managed by Deena Malone, and Mary McMillan of the ATS staff produces the *Fact Book* in its final form for publication. Nancy Merrill edited the text.

Full-time Equivalency Computation

Information on enrollment is reported according to Head Count (the total number of students enrolled) and full-time equivalency (FTE). The latter is calculated by ATS in the following two ways:

With the exception of the D.Min. program, the FTE equals the Head Count (HC) for all doctoral programs. The FTE for D.Min. programs is calculated at one-third of Head Count.

For all master-level programs FTE is computed in the following manner: Divide the total number of credits required for the degree by the number of semesters or quarters prescribed for degree duration to determine the average academic load. The total of credit hours taken by all students in a given degree program in a semester or quarter is divided by the average academic load. For Example: An M.Div. degree requires 90 semester hours, and the school considers the degree to be typically six semesters. The average academic load would be 90 divided by 6, or 15 hours per semester. If all M.Div. students complete a total of 600 hours for the semester, and the average academic load is 15, then the FTE would be 600 divided by 15, or 40 students.

Racial/Ethnic Categories

ATS uses the racial/ethnic categories as defined by the Integrated Post-Secondary Data System (IPEDS), published by the United States Department of Education. The definitions are as follows:

Non-Resident alien: A person who is not a citizen or national of the United States or Canada and who is in the country on a visa or temporary basis and does not have the right to remain indefinitely.

Black, non-Hispanic: A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippine Islands, American Samoa, India, and Vietnam.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

White, non-Hispanic: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

Race/Ethnicity Unknown or Unavailable: A person whose race or ethnic identity is either unknown or information about that person is unavailable.

Comparing Data Over Time

The methods by which the data have been computed have changed in some cases from those in previous editions of the *Fact Book*. The number of member institutions has changed in every even-numbered year since 1988 as additional schools have become new members of the Association. The degree programs were recategorized with the adoption of redeveloped accrediting standards in 1996. Also, changes in Financial Accounting Standards Board (FASB) reporting requirements in 1996 resulted in financial data for United States institutions that often differ substantially from previously reported figures. All these changes make over-time comparisons with earlier editions potentially less meaningful. A number of tables in this *Fact Book* report data over a three- to five-year period, and these tables have accounted for these variables. Comparisons over time within these tables are altogether appropriate.

Chapter 1

Institutional Characteristics

HIGHLIGHTS

In 2000 the typical, i.e., median, reporting ATS institution had a head count enrollment of 184 students with eleven full-time faculty members. Part-time and adjunct teaching faculty contributed the equivalent of another 4.6 full-time teaching positions.

The typical institution could draw on a library with more than 112,000 volumes, possessed long-term investments and endowment of \$13 million, and had total expenditures of \$3.2 million. The median tuition for the Master of Divinity degree program was \$6,950 in the 2000-2001 academic year.

The trend toward larger schools may be moderating. In 1990, 44.3% of schools reporting had a head count enrollment of 150 students or fewer; by 1999, that percentage decreased to 38.8%. The following year, however, reversed the trend, and the percentage rose to 40.3%.

ATS maintains three classes of membership: accredited, candidate for accredited membership, and associate. The figures in this table reflect the membership totals at the end of each calendar year. Descriptions of each category and the criteria for membership are in *Bulletin 44*, Part 1: Constitution and Dues Structure (Article IV) and Procedures, Standards, and Criteria for Membership (Articles I - III).

The following schools were admitted into their respective categories in the past year. *Accredited*: Loyola University Chicago Institute of Pastoral Studies, Western Seminary, and M. Christopher White School of Divinity of Gardner-Webb University. *Candidate for Accreditation*: Abilene Christian University Graduate School of Theology, Carey Theological College, Grand Rapids Baptist Seminary, Phoenix Seminary, and George C. Truett Theological Seminary of Baylor University. *Associate*: Boston College Institute of Religious Education and Pastoral Ministry and Department of Theology, Campbell University Divinity School, Inter-American Adventist Theological Seminary, Logsdon School of Theology of Hardin-Simmons University, Loyola Marymount University Department of Theological Studies, and James and Carolyn McAfee School of Theology of Mercer University.

Table 1.2, *Significant Institutional Characteristics of Each Member School 2000-2001*, contains the most recent data on selected institutional characteristics of each member school. DNR indicates that the school did not report the data. NA indicates that the field does not apply to the respective institution. Dashes indicate that the institution does not want the information published although totals, averages, and median figures include it.

Status—The three classes of membership are accredited (Accred.), candidate for accredited membership (Cand.), and associate (Assoc.). Criteria for membership are listed in *Bulletin 44*, Part 1, Procedures, Standards, and Criteria for Membership. Status is reported as of the end of 2000.

I/U/C—*Independent, University-Affiliated, and College-Affiliated*. These terms are elaborated in Table 1.3, p. 18.

Race—Each school identifies the predominant racial/ethnic identity of its enrolled students. For definitions of terms, see the Introduction, p. ix.

Prov(ince)/St(ate)—The primary location of each school is identified using postal abbreviations.

Church/Denom(ination)—Each school identifies its religious affiliation when it applies for membership. An explanation of the codes is found in the Appendix (pp. 123-124). Even though some schools are formally related to more than one denomination, only one denomination is listed in this table.

Expenditures—These data are expenditures for fiscal year 1999-2000. Canadian school data are reported in Canadian dollars; United States school data are reported in United States dollars.

E&G—(*Total Educational and General Expenditures*) The figures reported include instruction and net academic support, research, public service, library, student services, admissions, institutional support, operation and maintenance of plant, and scholarships and fellowships. Editions of the *Fact Book* up to and including 1995-96 also included mandatory transfers and debt repayment under E&G, whereas subsequent editions do not.

Total—(*Total Expenditures*) Total expenditures combine E&G and expenditures for auxiliary or ancillary enterprises, which include in most ATS schools such operations as student housing, meal service, and book store.

Long-Term Investment—Investments held for long-term purposes in accordance with FASB (*Financial Accounting Standards Board*) No. 124. This phrase replaces “Endowment” in previous editions of the *Fact Book*. Canadian school data are reported in Canadian dollars; United States school data are reported in United States dollars.

Faculty—The data on faculty are for fall 2000.

F.T.— Full-time faculty are individuals with faculty status who devote 50% or more of their time to teaching and/or research.

F.T.E.—The full-time equivalency for faculty is the sum of the number of full-time faculty and the equivalent of full-time teaching provided by part-time faculty. The latter figure is computed by dividing the total number of courses taught by all part-time faculty by the average teaching load of full-time faculty.

Library Vol(ume)s—The total number of printed books, serials, and periodicals reported in fall 2000. Library data reports reflect a variety of library arrangements among member schools, and these are footnoted in the table.

Enrollment—The data report enrollment as of fall 2000.

H.C.— Head count enrollment is the total number of students enrolled.

F.T.E.—Computation of full-time equivalent enrollment varies by degree program and is described in the Introduction, p. ix.

Master of Divinity

Tuition—Full-time tuition charges for the 2000-2001 academic year.

Fees—Other fees related to enrollment for the 2000-2001 academic year.

SUMMARY OF SELECTED INSTITUTIONAL CHARACTERISTICS, 2000-2001

Independent identifies schools that are freestanding higher education institutions. While independent schools may have consortial relationships with colleges or universities, they are not controlled by or subsumed within the formal governance structure of a college or university.

University-Affiliated identifies schools that are integral parts of larger teaching or research universities with multiple professional schools and graduate programs, typically offering research doctorates in more than one area.

College-Affiliated identifies schools that are integrally related to four-year colleges or teaching universities that have limited additional graduate or professional programs.

Primary Racial/Ethnic Composition identifies the primary racial/ethnic composition of the student bodies as reported by each institution.

- *Asian*: International Theological Seminary, Logos Evangelical Seminary.
- *Black*: American Baptist Seminary of the West, Hood Theological Seminary, Howard University School of Theology, Interdenominational Theological Center, McCormick Theological Seminary, New Brunswick Theological Seminary, Payne Theological Seminary, Samuel DeWitt Proctor School of Theology of Virginia Union University, Shaw Divinity School.
- *Hispanic*: Dominican Study Center of Bayamón Central University, Evangelical Seminary of Puerto Rico, Inter-American Adventist Theological Seminary.
- *Multi-Racial*: New York Theological Seminary.

Church/Denomination indicates each ATS institution's religious affiliation.

- *Protestant Denominational*: All schools that identify themselves as having an affiliation with a single or primary Protestant denomination.
- *Inter/Nondenominational*: A broad range of schools, including those with multiple denominational affiliations and schools with no official denominational affiliation.
- *Roman Catholic*: Diocesan, university departments of theology, and religious order (including union) seminaries in the United States and Canada.
- *Orthodox*: Greek Orthodox Archdiocese of America and Orthodox Church in America.

The distribution of schools by size has remained relatively stable over ten years. There has been a trend toward larger schools, reflected by the fact that in 1990, 44.3% of schools had a head count enrollment of 150 or fewer students and by 1999, that percentage decreased to 38.8%. In 2000, however, a minor interruption in the trend appears, and the percentage of schools with a head count enrollment of 150 or fewer students was 40.3%.

FIGURE 1.1**DISTRIBUTION OF STUDENTS AT SCHOOLS BY HEAD COUNT ENROLLMENT**

Figures 1.1 and 1.2 illustrate the distribution of students at ATS schools by institutional size. While the median head count enrollment of ATS schools is 184, the thirty-three institutions (13.6% of ATS schools) with enrollments larger than 500 students account for almost half (47.4%) of the ATS student population.

Member schools offer a variety of educational programs that are grouped into five degree categories. This table reports how many schools with accredited membership status offer one or more degrees in each category. A list of degrees approved by the ATS Commission on Accrediting is in the Introduction, p. viii. The ATS website (www.ats.edu) includes a list of all approved degrees and associates with each approved degree, member schools offering that degree.

Chapter 2 Enrollment

HIGHLIGHTS

Total head count enrollment in all member schools in fall 2000 was 72,728, with a full-time equivalent enrollment of 47,872.

The head count enrollment in all member schools increased by 7,091 students (+10.80%) from fall 1996 to fall 2000. Of this number, 64.26% (4,557 students) represented enrollment growth in a constant set of 225 schools that were members of the Association for all five years, and 35.74% (2,534 students) represented enrollment growth attributable to the admittance of new member schools to the Association.

From fall 1996 to fall 2000, the degree program that experienced the largest increase in the number of students enrolled was the M.Div., with an increase of 2,392 students (+8.53%). In the same five-year period, the greatest increases by percentage in student head count enrollment were in the master's in specialized ministries (+39.43%) and the master's in pastoral studies (+19.81%) degree programs. The degree programs that experienced the greatest decrease in head count enrollment by percentage (-18.12%) were the master's degree programs in music (M.C.M. and M.S.M.). These are similar to the patterns last year's *Fact Book* reflected.

The number of racial/ethnic students increased 25.69% over the five-year period from 1996 to 2000. While the number of White students increased 5.45% over the same period, the number of students in all other racial/ethnic categories increased more during the period, as follows: Asian students (+11.38%), Black students (+29.03%), Hispanic students (+50.42%), and Native American students (+34.64%). Some of the specific increases in the M.Div. degree program were the following: Black women M.Div. students (+44.87%), Asian women M.Div. students (+10.0%), and Black men M.Div. students (+10.08%).

In fall 2000, racial/ethnic students represented 20.75% of the total head count enrollment. Women constituted 34.91% of the total head count enrollment and 30.87% of the head count enrollment in the M.Div. degree program.

- 2 Number of formal notifications of admittance.
- 3 Number of applications accepted divided by the number of applications received.
- 4 Number of students who enrolled after being accepted.
- 5 Number of enrollees divided by the number of applications accepted.

The table reports the application, acceptance, and enrollment figures as of the fall of each year. Between 1999 and 2000, applications to all approved degree programs at member schools increased 5.25% (28,244 total applications in 1999 and 29,727 total applications in 2000).

In the degree programs of Ministerial Leadership, General Theological Studies, and Advanced Ministerial Leadership, schools accepted more than three-quarters of all applicants, although fewer than half of the applicants to the Advanced Theological Research programs (Th.D., Ph.D., S.T.D., S.T.M., and Th.M.). The figures represent combined acceptance rates at all ATS schools, and acceptance rates among and within individual schools vary significantly.

Tables 2.2 through 2.7 report the fall head count and full-time equivalent enrollments at all member schools over a five-year period. The tables also indicate the percentage of increase or decrease in enrollment from the previous year. The normally larger increases in enrollment during the even-numbered years are partially the result of new members joining the Association in the year of the Biennial Meeting. The kinds of degrees included in the five categories are summarized on page viii. The full-time equivalent enrollment for the Doctor of Ministry program is calculated by dividing the head count enrollment by three. For the Advanced Ministerial and Advanced Research doctoral degree programs, the full-time equivalent equals the head count.

Between 1999 and 2000, head count enrollment figures increased by 3.26% (+2,296), as did the full-time equivalent enrollment in all member schools, by 6.75% (+3,029). Since 1996, the number of schools reporting increased by 11; the total head count enrollment increased 10.8% (+7,091); and the full-time equivalent enrollment increased 10.27% (+4,458). The general increases in enrollment noted here, however, include both increases and decreases in the number of schools reporting by denomination and in the head count enrollment in various degree programs. First (see tables 2.4-2.7), the number of Protestant Denominational and Inter/Nondenominational schools increased from 174 in 1996 to 184 in 2000, and the number of Roman Catholic schools reporting increased (52 schools in 1996, 53 schools in 2000). Second, the two groups of institutions reported head count enrollment increases in all categories, with the exception of a minor decrease in Advanced Ministerial Programs in Protestant Denominational and Inter/Nondenominational institutions, a decrease of 13 students (-0.15%).

Table 2.8 compares head count enrollment at a constant set of 225 schools that were members of the Association for all five years (1996 through 2000) with total head count enrollment in all member schools for the same period. Head count enrollment in the 225 schools increased 6.98% over the five-year period. Total head count enrollment in all schools increased 7,091 from fall 1999 to fall 2000. Of this number, 4,557 students (64.26%) represented enrollment growth in the 225 schools, and 2,534 students (35.74%) represented enrollment growth attributable to the admittance of new member schools to the Association.

Year	N Schools	Full-Time Equivalent	Head Count	Full-Time Equivalent as a % of Head Count
1996	229	43,414	65,637	66.14
1997	226	43,247	65,361	66.17
1998	234	44,540	68,937	64.61
1999	234	44,843	70,432	63.67
2000	240	47,872	72,728	65.82

The difference between full-time equivalent and head count enrollments is a function of the proportions of students who are part-time. During the past five years, although the numbers of full-time equivalent and head count enrollments have increased, full-time equivalent enrollment as a percentage of head count enrollment has generally decreased, indicating an increasing number of part-time students. The enrollment figures in 2000 run counter to this trend, inasmuch as the FTE as percentage of the head count was 65.82%, an increase over the 1999 percentage of 63.67%

Tables 2.10 and 2.11 provide the head count and full-time equivalent enrollment, respectively, by degree category and program. As noted in the 1997-98 *Fact Book*, ATS instituted new definitions in 1997 to help determine which students should be counted in each category. This change is particularly important for the *Certificate* and *Unclassified* enrollment numbers. *Certificate* students take a prescribed curriculum of courses under faculty supervision. Normally, the curriculum comprises courses offered for credit in the school's degree programs. *Unclassified* students participate in regular classes for credit but are not enrolled in degree programs.

HEAD COUNT ENROLLMENT BY DEGREE CATEGORY

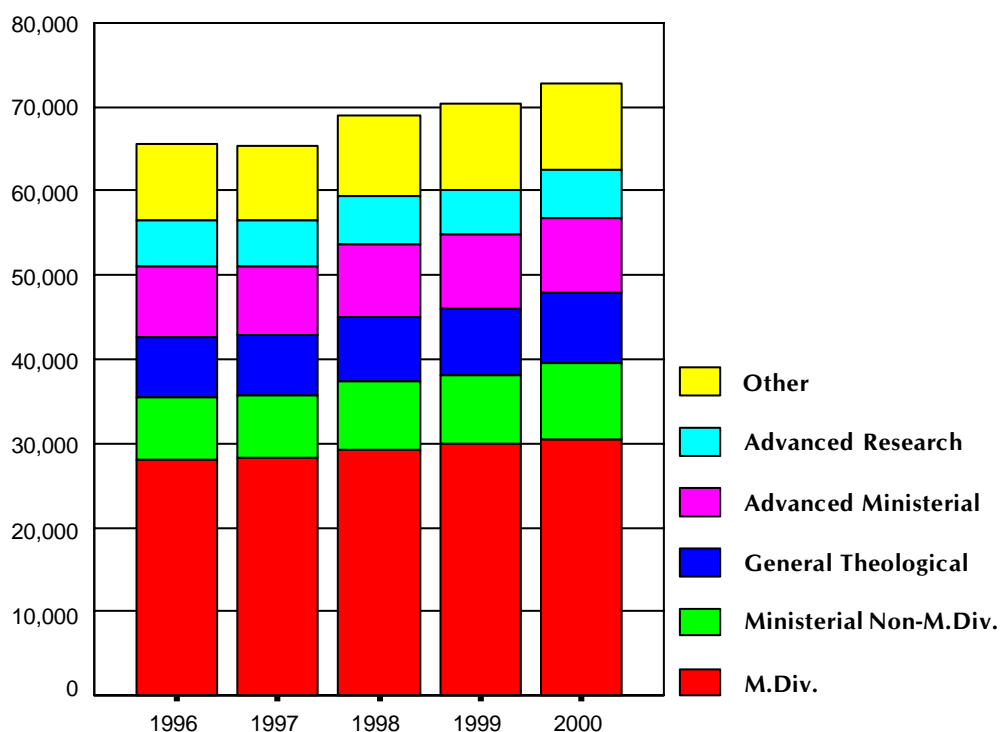

Figure 2.1 represents the head count enrollment by degree category over the past five years. The total growth over the five years in head count enrollment (+7,091) is not attributable to any one degree program. From the fall of 1996 to the fall of 2000, the total head count enrollment grew 10.80%, as various degree programs increased or decreased by percentage. The greatest percentage increase in students was in the M.Div. programs, with an increase of 2,345 students. Increases of note over the course of the same five-year period occurred in the following programs: M.A. in specialized ministries (+39.43%), M.P.S./M.A.P.S. (+19.81%), M.Div. (+8.53%), Th.D./Ph.D. (+6.43%), and the D.Min. (+5.04%). The degree programs that decreased notably in head count enrollment over the same period were the music programs (M.C.M. and M.S.M.) (-18.12%) and the D.Miss. (-9.43%).

FULL-TIME EQUIVALENT ENROLLMENT BY DEGREE CATEGORY

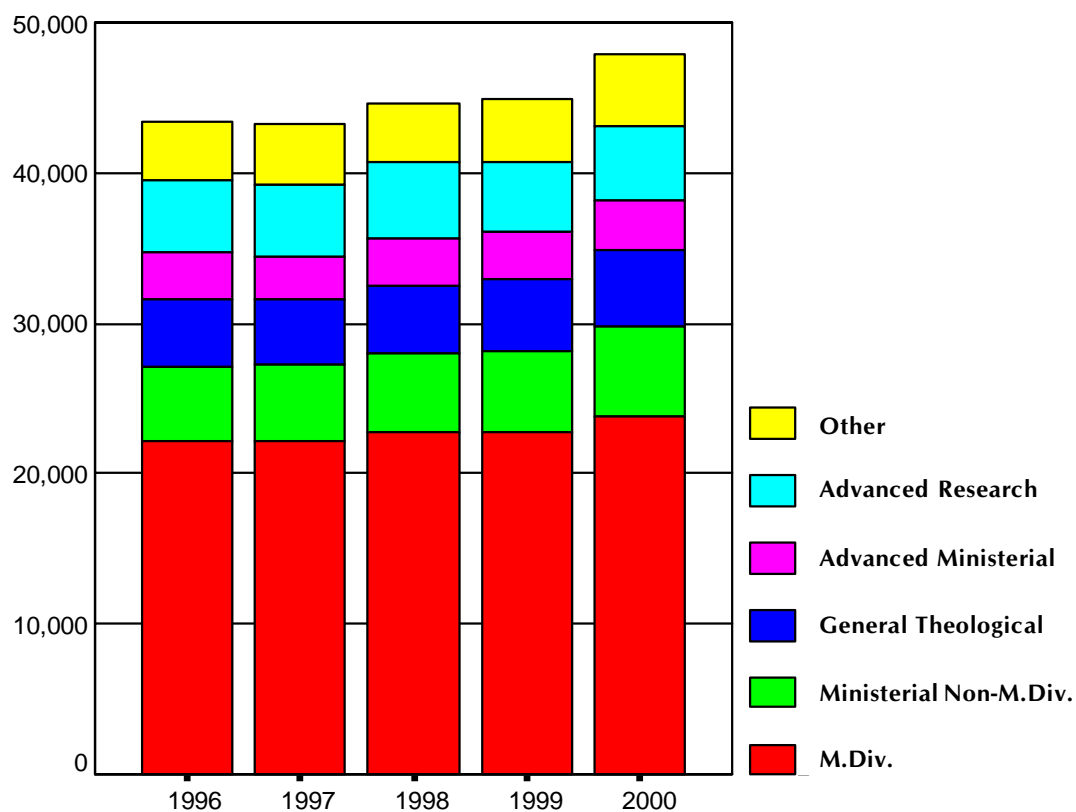

Figure 2.2 illustrates the full-time equivalent enrollment by degree category over five years. Full-time equivalent enrollment increased by 10.27% since 1996. These five degree programs show growth over the course of the five-year period: M.A. in Specialized Ministries (+39.72%), M.P.S./M.A.P.S. (+18.01%), M.A./M.A.R./M.T.S./M.A.T.S. (13.34%), M.Div. (+7.15%), Th.D./Ph.D. (+6.43%), and D.Min. (+4.63%). Decreases in full-time equivalent enrollment were M.C.M./M.S.M. (-19.43%), D.Miss. (-9.43%), Unclassified (-10.76%), M.R.E./M.C.E./M.A. in R.E./C.E. (-2.24%), and Th.M./M.Th./S.T.M. (-2.24%).

Of the total head count enrollment figure in fall 1999 (70,432), the 40-49 age group was the largest (24.6%). The 25-29 age group was the second largest, with 17.68%. More than fifty percent (51.95%) of the total head count enrollment was 35 years or older, while 39.61% were 34 years or younger. Enrollments reported as having an unknown age accounted for the remainder. This table is identical with last year's table, inasmuch as ATS collects this information every other year.

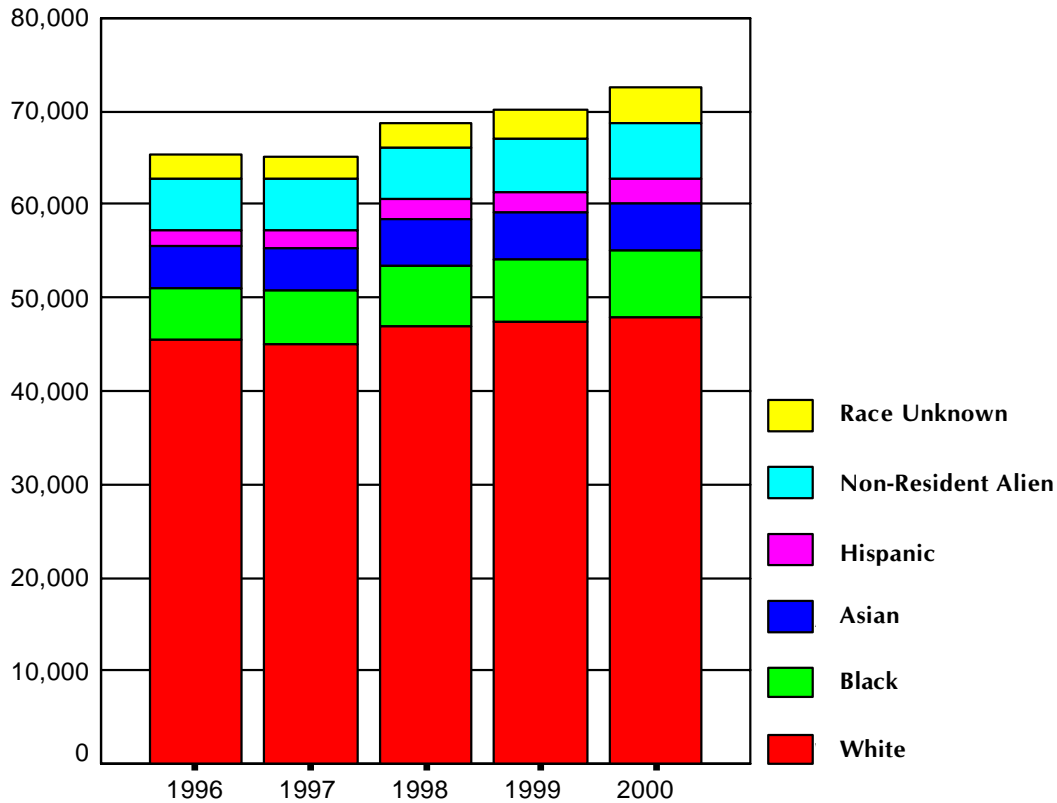

FIGURE 2.3**HEAD COUNT ENROLLMENT IN ALL PROGRAMS BY RACE OR ETHNIC GROUP**

Figure 2.3 shows the head count enrollment in all programs by race or ethnic group. ATS uses the racial/ethnic categories as defined by the Integrated Post-Secondary Data System (IPEDS), published by the United States Department of Education. See page ix of the Introduction for definitions.

The number of racial/ethnic students increased by 25.69% over the five-year period from 1996-2000. The numbers increased in all categories. The number of Hispanic students increased (+50.42%), as did Black students (+29.03%), Asian students (11.38%), Native American students (+34.64%), White students (5.45%), and Non-Resident Alien students (+7.23%). Some of the specific increases by degree programs were Black women M.Div. students (+44.87%), Asian women M.Div. students (+10.00%), Black men M.Div. students (+10.08%), and Asian men and women D.Min. students (+26.18% and +91.43% respectively).

FIGURE 2.4

HEAD COUNT ENROLLMENT IN M.DIV. PROGRAMS BY RACE OR ETHNIC GROUP

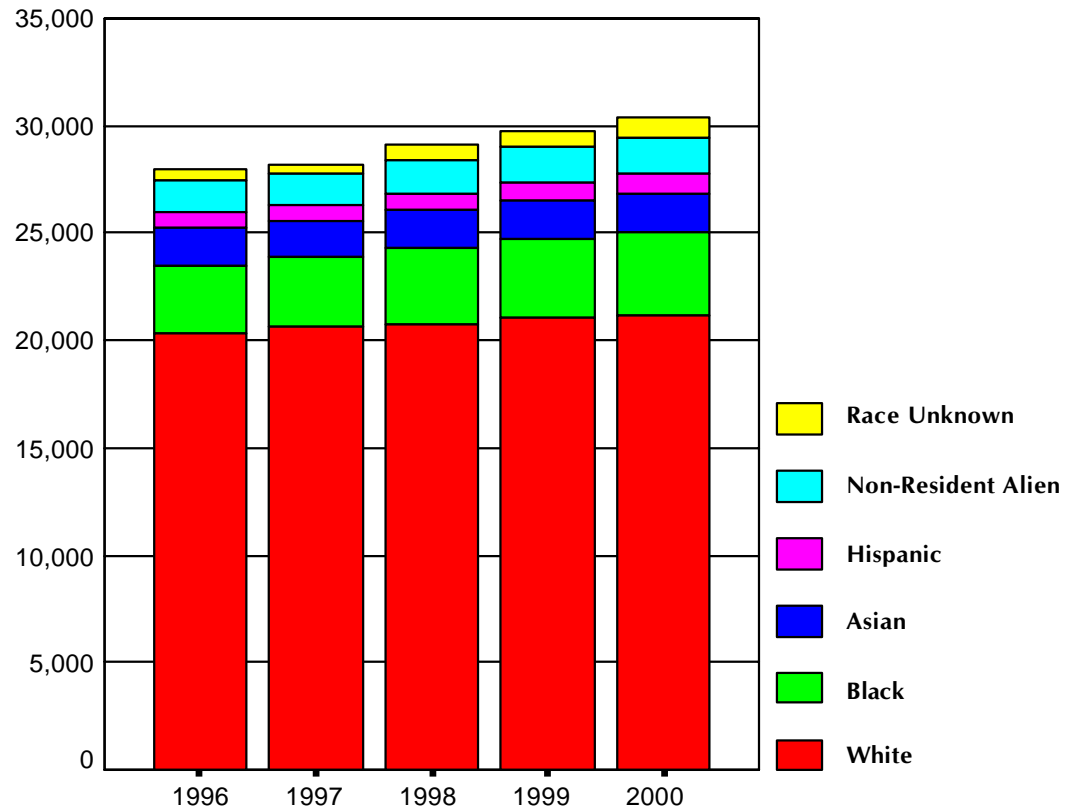

Figure 2.4 represents the head count enrollment in M.Div. degree programs by race or ethnic group. The overall number of racial/ethnic students enrolled in M.Div. programs increased 25.69% over the period 1996-2000. Black women M.Div. students increased (+44.87%), as did Asian women M.Div. students (+10.00%), White women M.Div. students (11.56%), and Black men M.Div. students (+10.08%).

FIGURE 2.5

HEAD COUNT ENROLLMENT IN ALL PROGRAMS BY GENDER

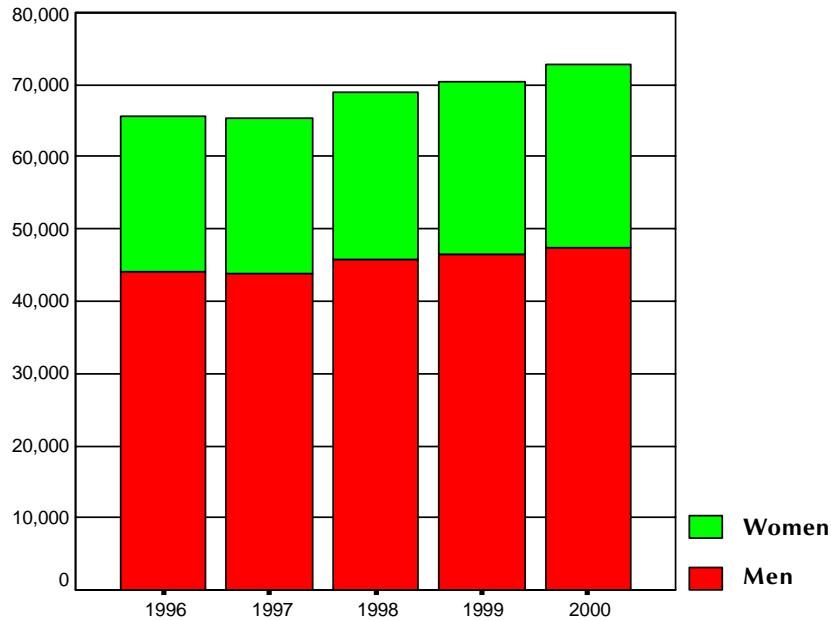

Figure 2.5 illustrates the totals of men and women students enrolled in all degree programs from 1996 to 2000. The number of men enrolled has increased 3,195 (7.24%) since 1996, and the number of women enrolled has increased 3,896 (18.13%). Overall, women now constitute 34.91% of the total enrollment, up from 34.2% in 1996.

HEAD COUNT ENROLLMENT IN M.DIV. PROGRAMS BY GENDER

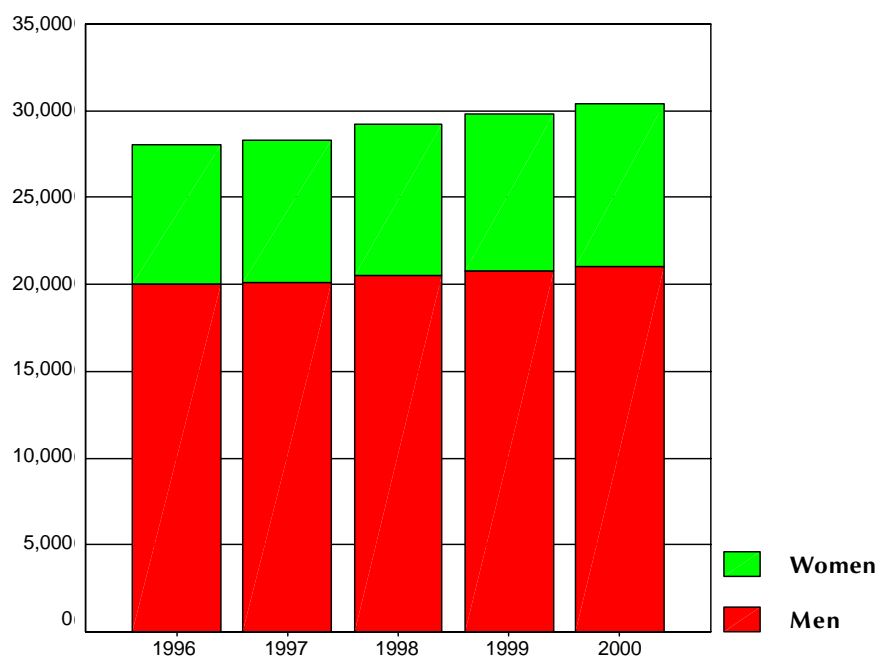

Figure 2.6 represents men and women student enrollment in M.Div. programs from 1996 to 2000. It illustrates that much of the growth in the M.Div. category has come from an increase in the number of women students, from 7,899 in 1996 to 9,392 in 2000. The number of men M.Div. students also increased moderately, from 20,046 in 1996 to 21,035 in 2000; however, the percentage of men M.Div. students declined from 70.88% to 69.13%. Overall, women M.Div. students constituted 30.87% of all M.Div. students, up from 28.50% in 1996.

Table 2.15 lists head count (H.C.) and full-time equivalent (F.T.E.) enrollment for member schools by degree category. In this year's *Fact Book*, as well as in the previous three editions, the calculation of the D.Min. full-time equivalent is based on one-third of the head count enrollment, inasmuch as the D.Min. is by definition a part-time degree. The "M.Div." category includes M.Div. and intern programs. "Ministerial Non-M.Div." includes the other professional master's degree programs (cf. Introduction, p. viii, for the complete list.).

"N Sch" identifies the number of schools enrolling students of the particular denomination; the head count enrollment appears under the heading "H.C." The last column records the total number of discrete schools in which students of that denomination are enrolled. The "M.Div." category includes M.Div. and intern programs. "Ministerial Non-M.Div." includes the other professional master's degree programs (cf. Introduction, p.viii for the complete list.). "All Others" includes all other degree, certificate, and diploma programs.

In the fall of each year schools report the number of students who completed a degree or other program during the previous academic year. This table reports the number of completions and the percentage increase or decrease from the previous year. A four-year figure is used because M.Div. programs at Lutheran and Roman Catholic schools are four-year programs.

Chapter 3

Composition of Faculty and Compensation of Personnel

HIGHLIGHTS

Racial/ethnic faculty now constitute 12.45% of all faculty members at ATS institutions. This percentage has grown 2.46% in the past five years, up from 9.99% in 1996.

The number of women teaching at ATS institutions increased by 23.35% since 1996, from 561 to 692. For the five-year period from 1996 to 2000, the number of women faculty has shown steady increases. The year 1996 itself, however, represented a decrease from the previous year, which accounts in part for the dramatic five-year increase. Women now constitute 21.06% of all faculty members.

Since 1996, the average total faculty compensation in United States schools has increased by 17.94% for men and by 19.53% for women. For the same period, the average total compensation for faculty in Canadian schools increased 7.62% for men and increased 0.58% for women.

FIGURE 3.1

**WHITE AND COMBINED RACIAL/ETHNIC FACULTY
AS A PERCENTAGE OF FULL-TIME FACULTY AT ALL MEMBER SCHOOLS**

As a percentage of full-time faculty members, racial/ethnic faculty members have increased over the last five years. In 1996, 9.99% of all ATS faculty were Asian, Black, Hispanic, or Native American. By 2000, that percentage had risen to 12.45%. Over the last five years, the numbers of racial/ethnic faculty have steadily risen.

FIGURE 3.2

**RACIAL/ETHNIC FACULTY AS A PERCENTAGE OF TOTAL FULL-TIME FACULTY
AT ALL MEMBER SCHOOLS**

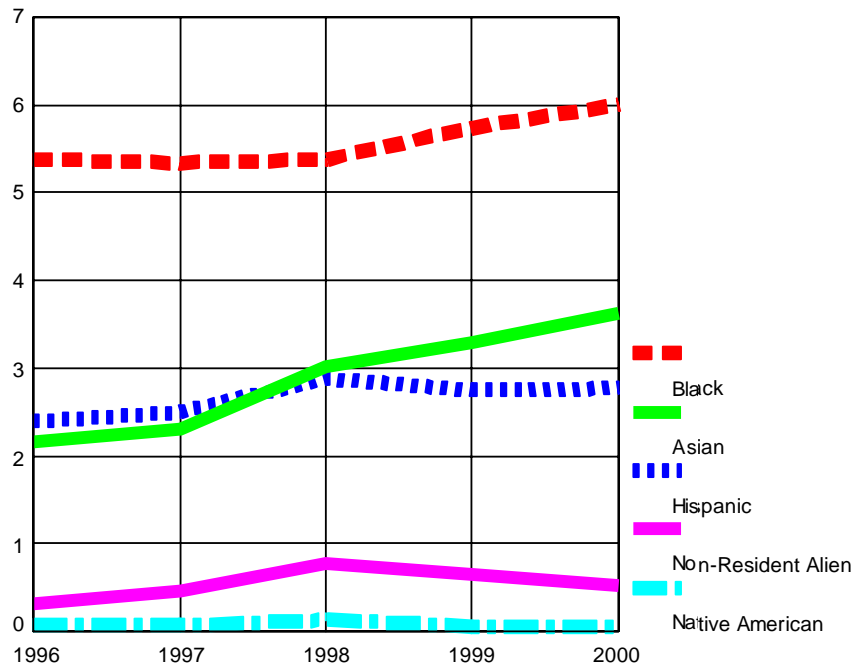

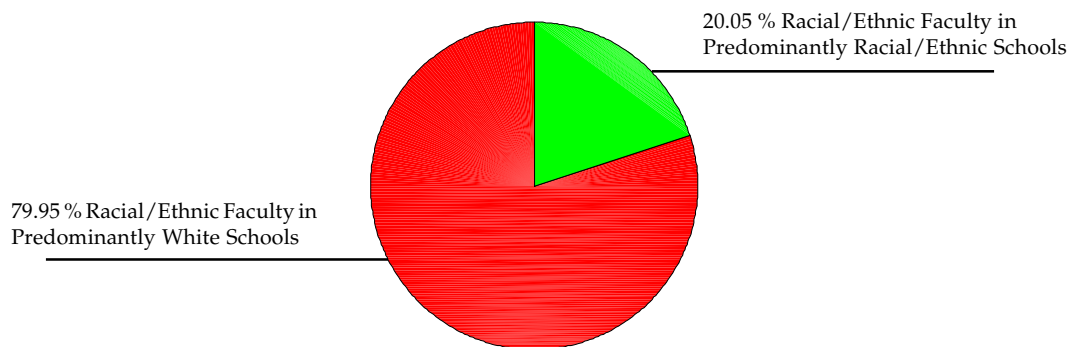

Figure 3.2 reflects Black, Asian, Hispanic, Non-Resident Alien, and Native American faculty members as a percentage of all full-time faculty members at ATS schools from 1996 to 2000. Although the percentages of Asian, Black, and Hispanic faculty members have increased since 1996, the increase has been more than a fraction of a percentage point only for the Asian group over the five-year period. The number of Native American faculty is so small that even though it is unchanged from 1996, its fractional percentage of the whole has dropped—from 0.07% to 0.06%—because of the overall increase in faculty numbers.

FIGURE 3.3

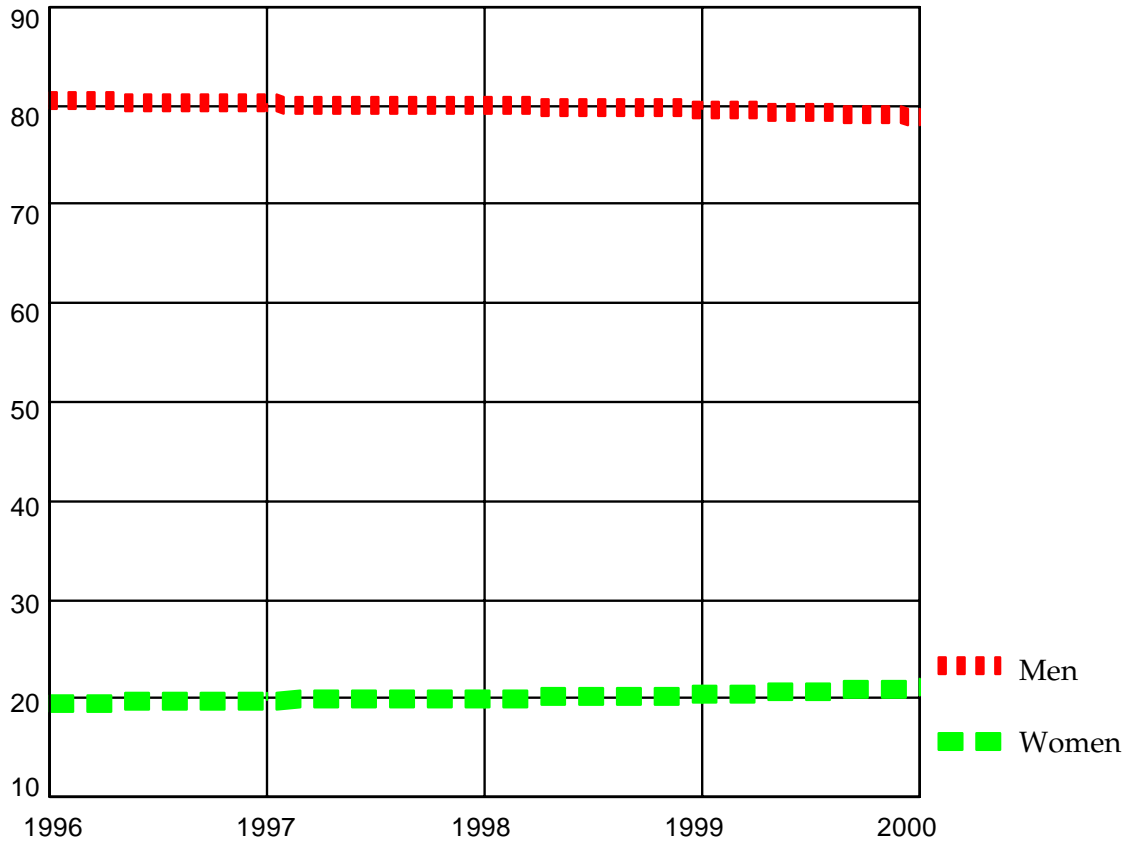

**PERCENTAGE OF RACIAL/ETHNIC FACULTY
IN RACIAL/ETHNIC MAJORITY AND MINORITY SCHOOLS**

Approximately 20% of racial/ethnic faculty members hold positions in institutions that are predominantly racial/ethnic schools, while the other approximately 80% are members of faculties in predominantly White schools. One hundred and nine ATS schools reported no racial/ethnic faculty members.

FIGURE 3.4

**FULL-TIME FACULTY BY GENDER AS A PERCENTAGE OF TOTAL FULL-TIME FACULTY
AT ALL MEMBER SCHOOLS**

The number of women faculty increased from 1996 to 2000. In the five-year period, the total number of women at all ranks increased from 561 in 1996 to 692 in 2000, and the percentage of women steadily increased from 19.46% to 21.06% in the same period.

1 Source: *The Chronicle of Higher Education*, April 20, 2001, based on a report by the American Association of University Professors (AAUP). Salaries are adjusted to a nine-month work year. The figures shown are for full-time faculty at comprehensive institutions, as the most comparable category (below doctoral institutions and above baccalaureate institutions).

2 Average salary for ATS faculty is calculated on the basis of contract salary, contributed services, and housing allowance or rental value of housing (if any) provided.

The average salary of professors in ATS United States member institutions rose 4.83% for the 2000-2001 academic year, associate professors 4.12%, and assistant professors 4.46%. Comparatively, at lower ranks, the average salary and housing of United States ATS faculty compares better with the nine-month average salaries of full-time faculty members at comprehensive institutions. [ATS annual report forms do not require schools to indicate whether their figures are for nine- or twelve-month salaries.] As rank increases, the disparity between comprehensive institutions and ATS salaries becomes more pronounced. The average salary of a professor at a public comprehensive institution is 11.93% higher, and that of an associate professor is 11.81% higher. At the rank of assistant professor, the average salary at a public comprehensive institution is 8.19% higher than that of an assistant professor in a United States ATS member school.

Over the two fiscal years, average compensation for faculty members at all ranks grew by 7.85%. Total compensation for faculty at the rank of professor grew 8.53% over the two years, associate professor compensation increased 8.88%, and assistant professor compensation grew at a rate of 7.94%. Administrative salaries increased at various rates. During the past two years, the Chief Executive Officers' average compensation grew by 9.92%, while Academic Vice Presidents' compensation increased by 5.26%. In the same period, Chief Development Officers' compensation grew by 10.5%, and Chief Financial Officers' compensation increased by 10.25%.

Table 3.8 provides averages for total compensation earned by administrators and full-time faculty at non-accredited ATS schools. The table groups United States and Canadian schools together because of the small number of schools reporting. The table converts Canadian dollars to U.S. dollars at the rate as of the June 30th beginning of each year. The factors used for converting Canadian dollars to U.S. dollars are as follows: 1998, 0.70; 1999, 0.68; 2000, 0.67. Total compensation includes contract salary, contributed services, housing allowance (if any) or the rental value of housing provided, pension payments (including institutional contribution to social security/social insurance), and medical and other insurance. The table omits compensation figures when a category reflects only one individual's data.

- 1 Housing—housing allowance or the rental value of housing provided. This amount does not represent a pastor's non-reportable tax reduction for housing.
- 2 Salary—contract salary and contributed services. Contributed services are an equivalent dollar value calculated for services rendered by a person to a school for which no monetary reimbursement is accepted.
- 3 Benefits—pension: the school's pension contribution (including institutional contribution to social security /social insurance); other: medical coverage, life insurance, auto furnished by the institution, etc.

Many ATS member schools provide housing benefits to their administrators and faculty. For most positions, the combination of salary plus housing benefits is greater than the salary of those who do not receive this benefit. Figures are reported in United States dollars with Canadian dollars converted at the rate of \$0.67 U.S.

Table 4.1 provides a guide to tuition and fees charged for Basic Ministerial Leadership, e.g., M.Div.; Advanced Ministerial Leadership programs, e.g., D.Min.; and Advanced Theological Research programs, e.g., Ph.D./Th.D., by the full-time equivalent enrollment size of the institution. Large increases or decreases within a category in average tuition between 1999 and 2000 reflect the movement of an institution from one size category to another rather than any overall changes in tuition. Tuition and fees for all M.Div. programs may be found in Table 1.2. All figures are in U.S. dollars. Canadian dollars were converted at the rate of \$0.68 U.S. for 1999 and \$0.67 U.S. for 2000.

The data in Table 4.3 reflect the average revenue and expenditure that member schools reported on a per-student (full-time equivalent) basis in specific categories. Please note that due to different FASB accounting standards beginning 1995-96, the revenue figures reported in this *Fact Book* as well as in the three previous editions of the *Fact Book on Theological Education* differ greatly from past years' figures and are not comparable. Previously "Net Realized Gains" and "Net Unrealized Appreciation" were not reported as revenue. Some existing categories, furthermore, such as "Gifts and Grants from Individuals," now include *all* individual gifts to the institution, not only those designated solely for endowment purposes, which may be either temporarily or permanently restricted as to their use. Additionally, note that the Association has revised the calculation for full-time equivalence in the D.Min. program to one-third of head count enrollment. Although the D.Min. program is by definition a part-time program, the full-time equivalent enrollment of D.Min. programs was calculated in previous years on a one-to-one basis with head count enrollment. This revision should make representations of per-student expenditures more accurate, inasmuch as the prior calculation tended to over-represent D.Min. students. In view of these changes, comparisons with previous years must be done with great caution. Not every school reported data in each category. For 1995-96, the full-time equivalent divisor is calculated from the previous year's data. All figures are reported in U.S. dollars. Canadian dollars were converted at a rate of \$0.67 U.S.

Table 4.4 presents the revenue sources at member schools as a percentage of total revenues for fiscal years 1995-96 to 1999-2000. Beginning in 1995-96, the data show a rather dramatic decline in several revenue categories as a percentage of total revenue, in comparison with versions of this table in earlier editions of the *Fact Book*. The apparent shift, however, is most likely the result of changes in the way schools are required to prepare their financial statements. In the United States, these changes affect the way schools reflect contributions and report their investments at market value rather than cost. These changes created the necessity of two new categories denoted as *Net Realized Gains* and *Net Unrealized Appreciation*.

Table 4.5 presents revenue sources as a percent of total revenue by church/denominational classification. An important aspect of this presentation is the relative impact tuition and fees, as well as gifts and grants, have on total revenue. Initially, there appears to be a significant disparity within these categories between denominational classifications.

As stated in Table 4.4, the categories denoted as Net Realized Gains and Net Unrealized Appreciation are the result of the way schools are presenting their financial statements and reporting investments. These two categories, combined, represent 2.65%, 19.90%, and 10.39% of revenues for Roman Catholic, Protestant Denominational, and Inter/Nondenominational classifications, respectively. A helpful comparison of other revenue categories is found when these two particular categories are not considered. Tuition and fees, and gifts and grants, represent between 80-97% of total revenue (exclusive of net realized gains/net unrealized appreciation) for each church/denominational classification.

The distribution of expenditures has changed little over the five-year period. Due to fluctuation in most of the categories, no consistent patterns or trends are evident from the figures. Please note that some prior editions of the *Fact Book* reported expenditure costs for "Instruction" and "Academic Support" as one figure. This table distinguishes them. Comparisons of these figures with the corresponding figures in editions of the *Fact Book* distributed before 1995-96 will be inaccurate.

Further note that this table and other finance tables in this *Fact Book*—as well as the editions of the *Fact Book* beginning with the 1995-96 edition—do not include *Mandatory Transfers*. Mandatory transfers from current funds are those that must be made in order to fulfill a binding legal obligation of the institution. Mandatory transfers are always a transfer out from current funds and are therefore always positive. In this category, schools used to report mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest and (2) required provisions for renewal and replacement to the extent not financed from other sources. U.S. schools would include also the institutional matching portion for National Direct Student Loans (NDSL) when the source of funds was current revenue. Because mandatory transfers are not reported, comparisons with earlier editions of the *Fact Book* must be done with great caution.

The data in Table 4.8 reflect the average expenditure costs per full-time equivalent student at Canadian and United States schools according to the full-time equivalent enrollment size of the institution. Please note that the Association has changed the calculation for full-time equivalence in the D.Min. program to one-third of head count enrollment beginning in the 1996-97 *Fact Book*. Although the D.Min. program is by definition a part-time program, the full-time equivalent enrollment of D.Min. programs was calculated in previous years on a one-to-one basis with head count enrollment. This revision should make representations of per-student expenditures more accurate, because the prior calculation tended to misrepresent D.Min. students. This table, however, cannot be compared with similar tables in previous editions of the *Fact Book* prior to the 1996-97 edition. Figures for United States schools are reported in United States dollars. Figures for Canadian schools are reported in Canadian dollars.

The data in Table 4.9 reflect the average expenditure costs per full-time equivalent student at Roman Catholic and non-Roman Catholic institutions. Please note that the Association has changed the calculation for full-time equivalence in the D.Min. program to one-third of head count enrollment beginning in the 1996-97 *Fact Book*. Although the D. Min. program is by definition a part-time program, the full-time equivalent enrollment of D.Min. programs was calculated in previous years on a one-to-one basis with head count enrollment. This revision should make representations of per student expenditures more accurate, because the prior calculation tended to misrepresent D.Min. students. Table 4.10 presents total revenues and expenditures at all members schools. The data above show that a dramatic shift occurred between 1994-95 and 1995-96. In the early 1990s, total expenditures for all member schools exceeded revenues, creating deficit spending as indicated. If the figures for 1993-94, when expenditures increased only 1.8%, are omitted, expenditures continued to increase at the average rate of 7.36% each of the five remaining years. Revenues, however, increased significantly, more than doubling between 1993-94 and 1997-98. Such a dramatic shift is most likely the result of changes in the way schools are required to prepare their financial statements rather than changes in the underlying reality. While the data show dramatic revenue surpluses over the past four years—due to the accounting method changes noted above—it is not apparent that such a continued rate of expenditure has actually avoided deficit spending through the 1999-2000 fiscal year. Note the reductions in income since 1997-98.

Chapter 5 Development

HIGHLIGHTS

Total giving reported by ATS member institutions continued the upward trend of the past half decade, reaching almost \$587 million and surpassing the 1998 record high of \$512 million. A closer look at the discrete categories reflects increased giving in most sectors ATS tracks.

Other possible trends that bear watching include the following: Giving by individuals, predominantly it turns out by non-alumni/ae, has continued to surpass contributions by religious organizations both to current operations and especially to capital projects. Contributions from religious organizations, nevertheless, constitute about one-third of contributions reported to ATS institutions for current operations.

These numbers, of course, are aggregate figures. There continue to be enormous differences between the median and the average among ATS institutions in all categories, suggesting that there remain wide variations throughout the Association.

Gifts from religious organizations increased by 8.4% this year, and such gifts continued to be one of the largest sources for ATS member schools, accounting for 32.1% of the total operational gifts. Gifts from individuals continue to be the other substantial revenue source for schools. In 1999-2000, such gifts represented 40.6% and 60.2% of operational and capital gifts, respectively.
