

Figure 1-15: HEAD COUNT ENROLLMENT

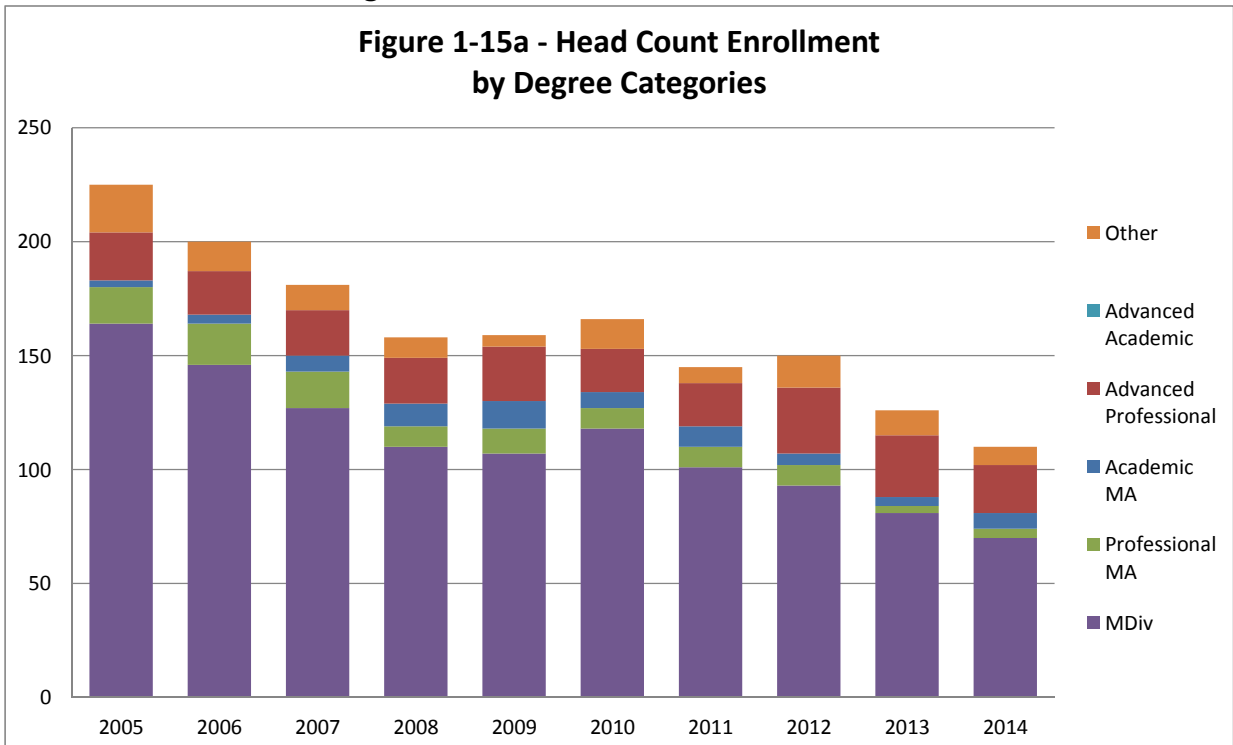

Figure 1-15a shows head count enrollment over a ten-year period segmented by degree program for the Master of Divinity and degree type for other programs.

Your current enrollment of 110 is less than your average enrollment of 162 for the decade.

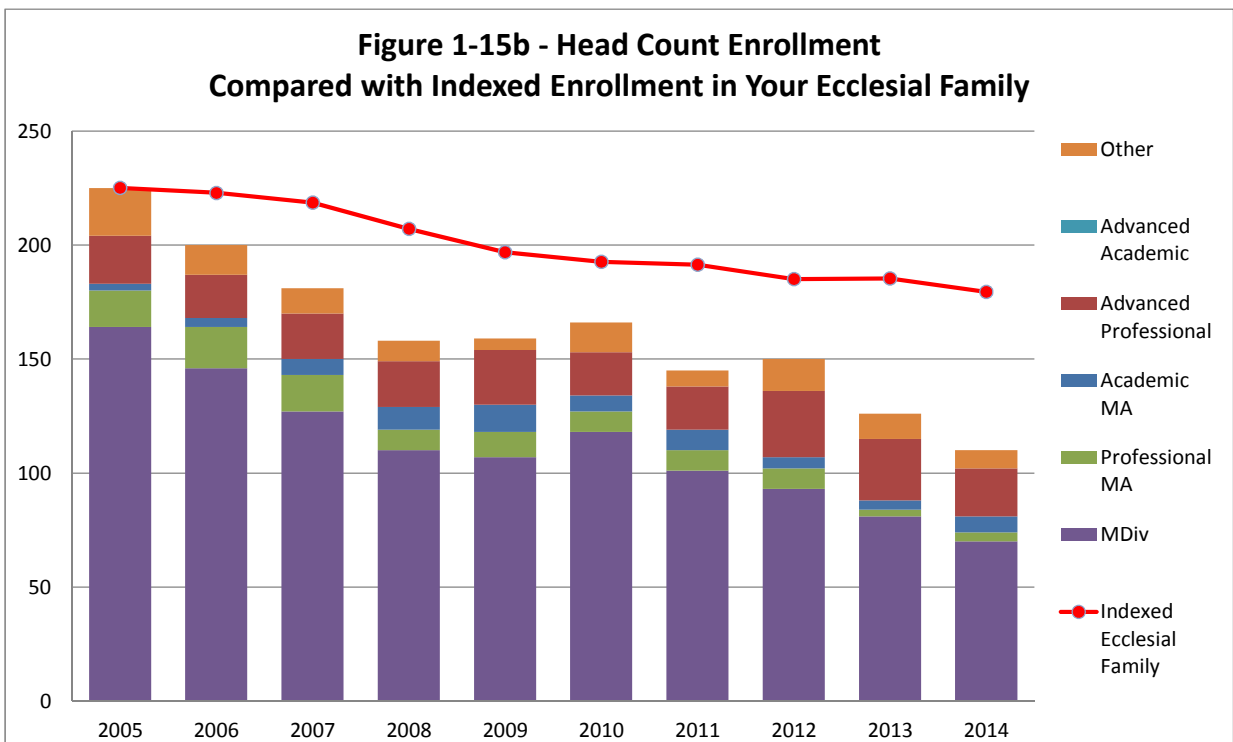

Figure 1-15b is an index chart that sets the first year's enrollment artificially at the same point for both the school and the total enrollment of the ecclesial family (evangelical, mainline, Roman Catholic/Orthodox) of which it is a part. The similarity or difference in growth rates from year to year can be observed.
