Legend: Total rows/columns are auto calculated and visually indicated with blue stripes in the online application and light blue shading in the print forms. Non-approved degree categories, those for which the member school does not have an ATS-approved degree, are visually indicated with a yellow zig-zag pattern in the online application and gray shading in the print forms. Report data for non-approved degrees where applicable and provide an explanation in the form comments.

Previous Year Enrollment: Count only students taking courses for credit (exclude audit students) during the previous academic year (fall, spring, and summer terms, i.e., 12 months). Students in internships are counted only if awarded credit. Students enrolled in a cluster or consortium should be counted in the cluster or consortium if it is a separately accredited member of ATS; if it is not, count only those students whose primary registration is at the member school.

Unduplicated Headcount: Count students only once. If students enrolled in more than one degree, count them only in the longer or more advanced program.

Degree Categories: The 2020 *Standards of Accreditation* (Standards 4.6-9) describe three categories of MA degrees, all of which are included in MA (all types). Canadian schools offering the BRE for which a completed bachelor's degree is normally required should report those students under MA (all types). "Other Prof Dr" refers to degrees like the EdD, DMiss, DMA, etc. (see Standards 5.-7-10 of 2020 *Standards of Accreditation*).

Non-Degree Programs: refer to any programs and courses offered for credit that do not result in an ATS-approved degree. Canadian member schools should include Bachelor of Theology students here; Roman Catholic member schools should include pontifical degree programs here. Note: The 2020 *Standards of Accreditation* (Standard 3.15) describes these programs as with or without credit, report here only the for-credit non-degree programs.
