# Introduction

---

The mission of The Association of Theological Schools in the United States and Canada (ATS) is to promote the improvement and enhancement of theological schools to the benefit of communities of faith and the broader public. The Association seeks to fulfill this mission by engaging in three core areas of work: (1) leadership education for administrative officers and faculty, (2) issues and initiatives, which includes issue-based consultations and applied research, and (3) communications and data. The Commission on Accrediting of ATS seeks to fulfill the mission through accrediting member schools of the Association and approving the degree programs they offer.

The Membership List is published online and provides information about the member institutions of the Association and the Commission. Member institutions of the Association are accredited schools, candidates for accreditation, and associate member schools. Accredited schools and candidates for accreditation are also members of the Commission on Accrediting.

The member institutions are listed alphabetically by membership category. Accredited members are institutions that, after review on the basis of the Commission's standards, are voted by the Board of Commissioners into accredited membership. Candidate for accredited membership schools are currently engaged in a self-study as part of their review by the Board of Commissioners for initial accreditation. Associate members are not accredited but have met the requirements for associate membership as set forth in the [ATS Bylaws](#) and [Procedures Related to Membership](#) and are voted into associate membership by the accredited member schools at Biennial Meetings of the Association.

Currently there are member schools of the Association: accredited members, candidates for accredited membership, and associate members.

The statistical information about each institution was provided by the school on its Annual Report Forms on the date noted. The Membership List also contains the public information about the accredited status of each member school, as provided by the Board of Commissioners of the ATS Commission on Accrediting.

The Commission on Accrediting *accredits institutions* and *approves degree programs* offered by accredited schools. There are two types of degree approval: ongoing and preliminary. Unless the designation "(preliminary)" appears following the degree, the Board of Commissioners has given ongoing approval of the degree. The designation "(discontinued)" following a degree program indicates that the institution is no longer admitting students to the program and will no longer offer the degree after the currently enrolled students complete the program. When institutions offer complete degree programs at more than one location, the degrees are approved for each site at which the institution offers them in full. Because the Commission does not approve degree programs of candidates for accredited membership or associate members, the degree programs of those schools are not listed in the Membership List.

A list of degree program abbreviations appears in this publication. Although some member schools also offer ecclesiastical or pontifical degrees, those degrees are not listed herein. Some member institutions grant degrees conjointly with other institutions or by virtue of their affiliation with other schools, and such information is noted. In the case of college-related or university-related schools, PhD and MA degrees listed may be granted by the college or university with

which the theological school is affiliated.

Notations are imposed by the Board of Commissioners in order to identify how and when, in its judgment, principles contained in the accrediting standards are not being adequately translated into practice by an institution. A list of notations appears in this publication.

Schools are identified according to church/denominational affiliations. Inter/multidenominational indicates that the school possesses multiple denominational affiliations with respect to governance, financial support, or other formal relationships; nondenominational indicates that the school has no official denominational affiliations.

Organizations with a substantial interest in theological education but not involved in educational programs leading to a degree, as well as schools offering graduate theological degrees but not in the Christian or Jewish faiths, may be granted Affiliate Status with the Association upon the recommendation of the ATS Board of Directors and the vote of the membership (see *Bulletin*, Part 1). A list of these organizations is also included, along with a list of the committees of the Association.

*Bulletin*, Part 2, Membership List is updated regularly and available in PDF format from the ATS website. The Member Schools section of the ATS website is updated nightly and reflects the most current information provided by member schools. More detailed information about a particular school should be sought from the school itself. The ATS website provides links to the home pages of most of the member institutions. Inquiries regarding the Association or the Commission on Accrediting should be directed to their office in Pittsburgh, Pennsylvania.

Organizations holding affiliate status with ATS are not members of the Association. Affiliate status is available to two types of organizations and institutions. The first is agencies or organizations with a substantial interest in theological education but not involved in educational programs leading to a degree; the second is schools offering graduate theological degrees and related to communities of faith other than the Christian or Jewish faiths. These organizations are elected, upon recommendation of the ATS Board of Directors, as ATS affiliates by a two-thirds vote of the members present and voting at a Biennial Meeting of the Association. Affiliate status carries eligibility for appointment to committees and voice but no vote in Association meetings. Affiliates pay annual dues as prescribed by the Board of Directors. Affiliate status is granted for a six-year renewable term with no limit to the number of consecutive terms. (cf. ATS Bylaws, Article II, Section 2.15, Affiliates)

In order to identify how and when, in the judgment of the ATS Commission on Accrediting, principles contained in the accrediting standards are not being adequately translated into practice, the Commission uses the notations listed below. These notations were developed to conform to the Standards of Accreditation and Procedures adopted by the Association in 1996. (cf. Procedures, section VI.E)

## **Purpose, Planning, and Evaluation**

- N1.1 The institutional statement of purpose is inadequately articulated or implemented.
- N1.2 Policies or procedures for comprehensive institutional evaluation are insufficient or ineffective.
- N1.3 The institution makes insufficient use of the findings of its evaluative efforts for improvement of institutional activities or educational programs.
- N1.4 The institution's planning processes are insufficient or ineffective.

## **Institutional Integrity**

- N2.1 Institutional policies or their implementation do not adequately ensure that students, faculty, administrators, or employees are treated in ethical ways.
- N2.2 The institution does not adequately demonstrate that its institutional or educational practices seek to enhance participation of racial/ethnic minority persons in institutional life.
- N2.3 The institution has not provided data or information to the Board as required by the standards.
- N2.4 According to its stated purpose, the institution has failed adequately to address the concerns of women so as to increase their participation in theological education.

## **Theological Scholarship: Learning, Teaching, and Research**

- N3.1 Within the context of the school's institutional purpose, ongoing efforts to ensure the quality of teaching, learning, and research are lacking or ineffective.
- N3.2 The institution lacks, does not uphold, or does not implement policies regarding the freedom of inquiry necessary for the activities of teaching, learning, and research.
- N3.3 The school's practices of teaching, learning, and research inadequately or ineffectively encourage global awareness and responsiveness.
