Internship position at AAAS Dialogue on Science, Ethics, and Religion

The American Association for the Advancement of Science (AAAS) seeks an intern to assist the Program of Dialogue on Science, Ethics, and Religion (DoSER)’s Science and Theological Education project. DoSER is part of the AAAS Science & Policy Programs directorate. DoSER was established to facilitate communication between scientific and religious communities; the science and theological education project involves a partnership with select seminaries throughout the US to integrate science into their core curricula, with a goal of promoting a positive understanding of science among religious leaders and eventually the communities they serve. The Dialogue builds on AAAS's long-standing commitment to relate scientific knowledge and technological development to the purposes and concerns of society at large.

The internship is anticipated for 3 months with a potential to extend to 6 months contingent upon performance and program needs.

Major duties and responsibilities:

- Correspond with scientific and theological educational institutions
- Contribute to the development and implementation of project ideas
- Help organize meetings and conferences
- Gather information on topics important for science and religion
- Provide support on various projects and activities

Minimum qualifications:

- A strong interest in issues relating to the intersection of science and religion
- Excellent written and oral communication
- Experience or familiarity with theological education
- Strong academic background (BS preferred; all majors considered)
- Background/coursework in one of the following: biology, evolutionary biology, astrobiology, ecology, physics, genetics, bioethics, religious studies, or theology
- Competency in Microsoft Office

More information about AAAS and DoSER can be found on www.aaas.org/DoSER, and candidates may apply at http://www.aaas.org/page/employment-aaas.
