INSTRUCTIONS
Data are to be reported for the most recently completed fiscal year and only for the member theological school. If the school will not have audited figures in time for submission of this form by the deadline, it may use unaudited data.

The Finance forms have been revised to comply with U.S. Financial Accounting Standards Board (FASB) Statements Nos. 116 and 117. For applying the requirements of FASB 116 and 117, the following definitions should be used in completing the form:

Temporarily restricted: Assets that have a donor-imposed restriction that permits the recipient organization to use or expend the donated assets as specified and that is satisfied either by passage of time or by actions of the organization. Canadian schools should report all restricted activities in this column.

Permanently restricted: Assets that have a donor-imposed restriction that stipulates resources be maintained permanently but permits the organization to use or expend part or all of the income derived from the donated assets (permanent endowment funds). No amounts should be reported in this column by Canadian schools.

Unrestricted: All other assets fall into this category. Any assets that historically were board designated would appear in this net asset classification; only donors can restrict assets.

For entities that have not yet complied with the standards and for Canadian schools, adjustments should be made to conform with the Finance forms as noted in the instructions. Explanations should be attached to note differences.

All data should be reported in whole dollars only; omit cents. For any item on the report where exact data do not exist, please give estimates. Items are cited by column and line numbers.

Note: ATS may make financial data public with individual school identity. The objective is to enable schools to utilize and benefit from all financial data. If a school does not wish to have its financial data made public, a statement to this effect should be attached to the completed form or returned data.

Question 4. Tuition Revenue and Scholarship Aid – by Program

This should include fundraising costs associated with the development office, both salaries and operational costs, as well as a cost estimate of the chief executive’s compensation that is involved in fundraising.
**ARF PROGRAM NOTES**

**Gray shaded fields:** For accredited institutions; the Admissions, Completions, and Enrollment forms may have gray fields. The gray fields represent degree program areas that are not applicable to the member school and the program will skip over these fields during data entry. As there are always exceptions, data entry is possible within these fields; however an explanation should be entered in the comments field of the relevant form. Some forms require explanations and the form cannot be saved without entering comments.

**Blue shaded fields:** The blue shaded fields represent fields for which data entry is not allowed. These fields, such as Total fields are calculated or contain amounts that are brought forward from another part of the form—the type in these fields is navy blue.

**Totals:** Column and row totals are generated automatically during data input—the type in these fields is navy blue. Some forms require certain totals to match other forms’ totals or totals on other pages. There is a small tolerance for differences in the totals to account for differences in rounding.

**Decimals:** Most fields on ATS forms require whole numbers. If decimals are entered in these fields, the program will round to the nearest whole number.

**Comments:** A comments field is included on each of the Annual Report Forms. The field is accessed by clicking the Comments button located in the upper left corner between the Print and Close buttons. Some forms will require explanations be entered in the comments in order to continue. The text color on the comments button changes to red when comments are entered.
