Form EF-2: Enrollment by Age and Gender
Fall Data for Current Academic Year

INSTRUCTIONS

Form EF-2: Enrollment by Age and Gender is required biennially only and is available every other year in academic years beginning in an odd numbered calendar year. Report the Head Count of students enrolled this fall for each for each degree category by gender and age group.

Schools that are members of a cluster should not list those students enrolled in graduate or professional programs of the cluster if the cluster itself is a member of ATS and reports the enrollment. Use the criterion of primary registration to determine this. In case of doubt, the school and the cluster should agree to which school will report the figure.

The primary registration of a student is determined by the institution in which the student is registered in a degree program, not the institution in which the student is currently taking courses.

Include only those students who are formally moving toward completion of a degree, diploma, or certificate.

Include Intern students enrolled in intern-year programs when the internship is under the supervision of the theological school and integral to the completion of the degree program.

Do not include audit students.

Formal summer school enrollees who complete their degree requirements at the end of the summer should not be counted in the fall enrollment but should be counted as completions on the ATS Completions form.

Do not include individual students in more than one count. Students should be counted in only one program, preferably in the longer duration or higher academic degree program. Thus, a PhD candidate who may receive a master’s degree after two years should normally be listed only as an enrollee under PhD.

Form EF-1 Enrollment by Race and Gender should be completed first. The subtotals from Form EF-2: Enrollment by Age and Gender, must match the subtotals from Form: EF-1: Enrollment by Race and Gender.

DEGREE PROGRAMS
